

Face The Day

you know i'm sick of asking questions
there's no one here to answer anyhow
you know i wish i knew the answers
to all of life's wicked, wicked powers

i fell into that lake of fire
heaven sent me into outer space
she's my gutterbilly cheetah
i'm a hungry old wolf
but i know i couldn't face the day

there's nothing left for me but darkness
i can't remember when i've seen the light of day
you know i wish i knew the answers
to all of life's wicked, wicked ways

i fell into that lake of fire
heaven sent me into outer space
she's my gutterbilly cheetah
i'm a hungry old wolf
but i know i couldn't face the day

i fell into that lake of fire
heaven sent me into outer space
she's my gutterbilly cheetah
i'm a hungry old wolf
but i know i couldn't face the day
